# CSI Overview

## Manufactured Delivered Just in Time!

Since 1978, we are a US Based manufacturer and distributor of innovative packaging solutions for the Beauty and Personal Care Industries

- Single and double wall jars and closures
- Custom cosmetic components – national leader in mechanical pencils and nail closure design and manufacturing

### Full Service Injection Molding

- Short 6 week average lead times
- Two shot capability
- Versatile Press Sizes
- Short Run Capability
- Engineering, Commodity and Fully Biodegradeable Resins

### State of the Art Mold Design and Tool Shop

- Tool Design and Mold Building on site
- In House mold repair and spare part manufacturing
- Product Prototype department with samples in days

### One Stop Shop with Decorating and Assembly

- Design Services
- Silk Screening
- Top Stamp and Hot Stamp Banding
- Offset Plating and Printing
- Cap Lining
- Other Custom Capabilities
- Layer Packing
- Custom Packing and Shipping to your specifications

# CSI Custom Components

## US Based Design Build Capability

Since 1978, we've helped the beauty and personal care industry save time, reduce costs, improve product quality, and build brand equity through precision tooling and manufacturing, just-in-time delivery and consistent innovations.

We provide comprehensive in-house design and engineering services, prototyping and world-class manufacturing capabilities that have continuously delivered quality products that have exceeded our customers' expectations.

Great tools make great products. Our mold design and build experience in the US and worldwide sets the industry standard for the highest quality injection molds. Quality is forefront on every project and we understand your brand strength lies in the smallest of details. We take pride in being responsive to your needs and ensuring that consistent quality is the only acceptable standard.

# CSI Double Wall Jars

- All CSI liners are manufactured utilizing polypropylene for the highest degree of chemical resistance
- Available in all colors. Contact customer service for your decorating options

# CSI Introduces a New Biodegradable Innovation

## Plastics - Made by Nature

- CSI has worked on the forefront of sustainable plastic materials for 5 years
- Working in collaboration with global suppliers of biodegradable and compostable materials
- These sustainable materials are especially designed for injection molding
- Materials are predominantly composed of natural resource materials
- Biodegradability and compostability are certified by independent organizations

## Manufacturing Sustainable Products

- CSI provides full service product and brand management for sustainable materials
- Domestic and international sources for the latest in mold technology
- Currently working with global brands to convert existing packaging to biodegradable packaging
- Producing finished product utilizing biodegradable materials
- CSI will introduce a full line of sustainable and biodegradable products in 2012

## High Gloss, Scratch Resistant, Elegant, Stable, Recyclable

### Earth Friendly, Sustainable Plastics

CSI is committed to the environment and the sustainability of our planet. We are offering a wide range of biodegradable and compostable materials for use in the personal care industry.

- FKUR\* based in Germany is a leading provider to CSI of innovative biodegradable and compostable resins
- Materials are especially designed for injection molding
- High gloss, scratch resistant and elegant coloring as demanded by the personal care industry
- Materials are stable and chemical resistant
- Materials designed as a biodegradable alternative to PS and have similar technical characteristics
- Grades of materials are registered and certified as compostable and/or biodegradable
- Materials contain no harmful substances
- Biodegradable materials can be recycled in-plant at a rate of 20%

\*FKUR based in Germany is a leading producer of biopolymer resins/blends for flexible packaging (Bio-Flex®) and rigid applications (Biograde®). The cooperation with the Fraunhofer Institute UMSICHT, Oberhausen, Germany, guarantees our innovation, know-how and quality.
