

Straight Base Jar

Smooth Low Dome Cap

Dome Symmetrical
Dispensing Cap

Description

CSI is committed to manufacturing products utilizing an innovative line of environmentally friendly resin additives used globally to degrade plastics and assist the sustainability of our planet.

Features & Benefits

- Produce a plastic product with equivalent performance characteristics as current non-degradables
- Plastics will ultimately oxo-biodegrade into CO₂, H₂O and biomass when properly discarded
- Oxo-biodegrades in multiple environments
- Harmless to humans, animals and plant life
- Helps avoid the accumulation of unsightly litter in our environment
- Reduces volume in landfills and aids in landfill compression
- Leaves no known harmful residues in the soil or waste stream
- Does not divert resources from food supply industries
- Cost effective and environmentally safe
- No special storage requirements for raw or finished products
- Greater tensile strength than starch based plastics and leak proof

Specifications Provided on Reverse Side

Decoration Options

- Additives do not affect the adhesion properties of the plastic product.
- Products can be decorated utilizing silk-screening and offset printing, and banding.
